

"Bringing Permanent Change in the Lives of People"

Received & Inspected

JAN 25 2012

FCC Mail Room

To Whom It May Concern,

In regards to the recent FCC ruling that 'closed captioning' must be placed on all new video programming, this non-profit organization is herewith sincerely requesting a waiver due to the sure fact that such a requirement will place a substantial 'undue burden' on our financial resources. Never has our organization asked for funding over the air; therefore, air time payments are high, and the program quite possibly would be hindered from airing should the waiver not be granted. Please grant us this waiver and notify us of such. Thank you very much for your consideration."

If you have any further questions, please feel free to give a call at 804-744-8881 x228.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeremy Cromwell', is written over the printed name and title.
